

Module 1 European Studies through Digital European Languages Policies

Practical workshop No. 5

Topic 5: Analysis of Digital Tools Supporting Multilingual Education

Part 1: Theoretical Questions

1. What are the main advantages of using digital tools in multilingual education?
2. How do digital platforms support language learning and multilingual communication?
3. What role does artificial intelligence (AI) play in modern language education?
4. How do mobile applications (e.g., Duolingo, Babbel, Memrise) contribute to multilingual learning?
5. What are the key features of successful digital tools for multilingual education?
6. How do virtual and augmented reality technologies enhance language learning experiences?
7. What are the limitations and challenges of implementing digital tools in multilingual education?
8. How do gamification and interactive elements improve engagement in digital language learning?
9. What ethical considerations arise when using AI-driven translation and language learning tools?
10. How do digital tools support inclusive education for learners with different linguistic backgrounds?

Part 2: Practical Questions

1. **Case Study Analysis:** Choose a digital tool for multilingual education (e.g., Google Classroom, Moodle, Quizlet, Kahoot!) and evaluate its strengths and weaknesses.
2. **Comparative Task:** Compare two AI-powered language learning apps. How do they differ in their approach to multilingual education?
3. **Policy Review:** Analyze an EU policy promoting digital tools in language education and discuss its effectiveness.
4. **Data Interpretation:** Examine usage statistics of a popular digital language learning platform. What trends do you notice?
5. **Critical Thinking:** Debate the pros and cons of replacing traditional language classes with fully digital learning environments.
6. **Digital Tools Exploration:** Test a speech recognition tool (e.g., Speechling, TalkPal) and assess its accuracy in different languages.
7. **Interactive Task:** Create a short instructional video explaining how a specific digital tool enhances multilingual education.
8. **AI and Multilingualism:** Experiment with an AI-powered chatbot (e.g., ChatGPT, Replika) to practice conversations in different languages. Assess its effectiveness.
9. **Legislation Interpretation:** Summarize key points from an EU document on digital education and discuss its impact on multilingual learning.
10. **Future Perspectives:** Design a concept for a new digital tool that would enhance multilingual education. What features would it have?
